Küçükbay Oils proudly represents Turkey in the international market with its exports to over a hundred countries, usually under its own brand, in line with its vision from day one of becoming a global brand.

Orkide, a brand of Küçükbay Oils, contributes more to the national economy each year as it increases the number of countries it exports to. This is made possible by its diverse product catalogue, high production capacity and by being up to the highest global standards.

Küçükbay Oils provides the countries it exports to with only the highest quality liquid oils, up to the strictest global standards. This is achieved with the help of its state of the art facilities and its rigorous research and development into the national cultures and the liquid oil consumption habits of each country.

Küçükbay Oils' large portfolio of brands includes:
“Orkide”, “Ekiz”, “Oba”, “Vera”, “Abide”, “Nur” and “Nursun”.

LEADING STAR OF EXPORTS

Küçükbay Oils has been seen fit for many awards by the Turkish Exporters' Assembly who have recognized its far-reaching export ties to the seven corners of the World, including the Far East, the Middle East, Africa, the Americas and Australia. Küçükbay Oils is also an official supplier of the UN and of the charity organizations tied to the International Red Cross.
