THE TALE OF FLAVOUR, STRETCHING FROM FERTILE LANDS TO YOUR KITCHEN

Since 1979, we have been at your tables with “health and safety,” driven by a brand born out of fertile lands. Since 1979, we have been working with a passion for a healthy life.

The tale begins in 1979, in the sunflower fields growing over fertile plains. Since then, we have been supplying your kitchens with health and safety, adding joy to your meals with various margarines and vegetable oils—from the sunflower oil of the Marmara fields to the olive oil of the Aegean and Marmara groves.

Kucukbay Oil Industry Inc. which has achieved sustainable growth in the vegetable oils sector from 1979 to the present and is the greatest vegetable oils producer of Turkey that exports its products to nearly 100 countries with its widespread export network in foreign markets.

Kucukbay Oil Industry Inc continues its production activities in two facilities located in Turkiye. Vegetable edible oils, margarine, vegetable ghee, baking and industrial fats are produced in the Bornova factory. Olive oils are produced in the factory established on an area of 10,000 m2 in Çiğli factory.

Kucukbay Oil Industry Inc. appear with its products in diverse categories which are vegetable edible oils (sunflower oil and corn oil), olive oil, extra virgin olive oil, vegetable margarine, vegetable ghee, baking fats and industrial fats. It has got a large portfolio of brands such as Orkide, Ekiz, Oba, Nur, Vera, Nursun, Abide.

orkide®

Corn Oil

Produced in state-of-the-art refining facilities, Orkide Corn Oil is highly preferred for frying due to its exceptional heat resistance. It is ideal for achieving crispy, golden-yellow potatoes and fried pastries that remain soft and non-greasy on the inside. The oil ensures tender, perfectly cooked results for sautéed red meat and poultry dishes, while also facilitating the smooth kneading of 'çiğ köfte', a traditional Turkish delicacy. Furthermore, this product is excellently suited for hot entrees, oven-baked dishes, rice, and pasta.

Vegetable Ghee & Margarine

It is a vegetable fat developed in state-of-the-art refining units. It is an aromatic, water free and 100%-vegetable based fat which is generally used in cooking meals. It can be used in a variety of foods from rice dishes to pastries, adding a unique buttery flavour to your dishes. It's a good fit for cooking on a larger scale. It can be used for hot meals in dining halls, restaurants, and cafeterias.

Orkide vegetable margarines are crafted from refined vegetable oils (such as sunflower, cottonseed, canola, and palm oils) and are widely used for cooking, baking, and spreading.

Frying Oil & Fats

In professional kitchens, the choice of frying oil is crucial for operational success. Designed for high-volume deep-frying applications, Orkide Frying Oils & Fats provide superior thermal stability at high temperatures, ensuring evenly cooked and exceptionally crispy results in fried foods. The use of these specialized frying oils offers significant operational advantages for kitchen businesses, including extended oil life, reduced smoke formation, and a perfect golden texture for high-demand foods such as fried chicken and french fries.

PRODUCTION UP TO GLOBAL STANDARDS

Since 1979, we have been at your tables with

Our Factory at Bornova, Izmir

Our factory at Bornova, Izmir produces liquid oils, margarine, out-of-home consumption oils, baking fats and industrial oils. The 30.000 m² factory is occupied with liquid oil filling, refining and deodorisation facilities, as well as three separate margarine and shortening facilities. Our factory is a modern facility with state of the art technology and infrastructure. The system has been integrated with full automation and data collection systems, relating to product monitoring. The factory also boasts modern storage facilities with impressive capacity, (labs, and filling, labeling and boxing units).

Our Facility at Kemalpaşa Akalan, Izmir

Our facility at Akalan, built on a 80.000 m² plot in Kemalpaşa, Izmir, stores crude vegetable oils at a very high capacity.

Our Olive Oil Factory in Çiğli, Izmir

Our state of the art factory at Çiğli, built on a 10.000 m² plot in Izmir, produces olive oil through our fully automated production lines. The staple of Mediterranean cuisine, the olive oil, is produced here with the utmost care to be served to your tables in safety and in its 100% natural state.

QUALITY CERTIFICATES

We carry out all our business processes in accordance with high standards within the scope of integrated quality management systems. "Food safety" and "job security" are always among our priorities. Our main principles include controlling activities that may adversely affect the environment, minimizing risks related to occupational health and safety, and ensuring customer satisfaction. We register all these sensitive titles with our national and international quality certificates.
