# THE TALE OF FLAVOUR, GROWING FROM FERTILE LANDS TO YOUR KITCHEN

Our tale began in the sunflower fields growing over the fertile plains of Anatolia in 1979. In 1980, we began production of sunflower oil in a state-of-the-art facility, with the highest technology infrastructure of the time.

The brand of the sunflower oil we produce with the utmost care was named after the orchid flower, a symbol of “purity, care, grace, originality and mastery”. Following sunflower oil, under the Orkide brand, we started making olive oil in 1989, corn oil in 1998, vegetable margarine in 2003, canola oil in 2007, industrial margarine in 2009 and Omega 3 oil in 2015. Orkide proudly boasts all these types of oil, from liquid oils to margarine, to out-of-home consumption oil to baking fats to industrial oils.

Since 1979, we’ve been growing continuously with leaps and bounds. As the largest producer of liquid oils in Turkey, we are among the foremost in popular consumption in Turkey, but we also export to over 100 countries worldwide. We also contribute to the job market as we employ a considerable number of employees.

Orkide engages in research and development over the national cultures and liquid oil consumption habits of each country to draw on the strength of its state-of-the-art facilities, provide them with liquid oils up to global standards with a large portfolio of brands such as “Orkide”, “Ekiz”, “Oba”, “Vera”, “Abide”, “Nur” and “Nursun”.

## A Tale of Flavour from the Kitchens of Turkey to the Kitchens of the World

Orkide Oils has weaved a saga of flavour, drawing inspiration from the diverse regions of its birthplace and their unique cuisines. Orkide Oils has taken the tales of the olives of the Aegean, of the sunflower of Marmara, and of the corn of the Mediterranean, and shared them with Turkey and with the wider world. As an exporter to over 100 countries, Orkide’s tale is a tale of triumph.

For years, with the high quality and delicious oils we produce, we have been the cornerstone of every meal, from soup to dessert. We’ve been working with passion to give you a healthier life, and we take pride in taking our rightful place on the meal tables all across the world, as well as in Turkey.

**orkide**

# LIQUID OILS

Liquid oils, which directly affect the taste, smell, and colour of meals are the cornerstone of delicious and light recipes. The sunflower oils and corn oils have been the crown jewel of the best recipes for years thanks to their rich contents.

# SUNFLOWER OILS

We produce the Orkide Sunflower Oil from the seeds of the sunflower and refine it in our state-of-the-art facilities. With our sunflower oils, we add joy to warm meals, salads, and fries.

Recommendation for Use

You may use the Orkide Sunflower Oil in all meals warm and cold, in fries, salads and pastries. As it is resistant to high heat, it is ideal for fried pastries, stir-fries, meat, vegetables, and fries.

Benefits

Sunflower oil is a treasure trove of Vitamin E. It is much richer in Vitamin E compared to other types of oils, and this vitamin is very beneficial for the health of your skin. It is also rich in Vitamins A, D and K; and Omega-6 and Omega-9. It contains a high amount of polyunsaturated fatty acids. It does not contain cholesterol and is good for your heart. With its wide range of use, it's a staple of every kitchen.

Storage Conditions

Use by opening the plastic cap without puncturing the packaging, close the cap after use. Keep out of the sun, store in a cool place. Make sure water doesn't get in the tin.

# CORN OIL

We produce the Orkide Corn Oil from kernels of corn and refine it in our state-of-the-art facilities. With its high contents of fatty acids and triglycerides, it is a good source of energy. It’s a perfect fit for warm meals, salads, and fries.

### Recommendation for Use

Orkide Corn Oil is ideal for warm dishes, pastries, rice, pasta and especially for fries and fried pastries since it is resistant to heat. Sauteed red meat and chicken meat are also a perfect fit for Orkide Corn Oils.

### Benefits

Corn oil is a good source of energy with its high content of fatty acids and triglycerides and contains a high amount of polyunsaturated fatty acids. It is rich in Vitamin E and Omega-6. As such, it is a powerful antioxidant. Research shows that healthy phytosterols play a key role in lowering the blood cholesterol levels. Corn oil is the richest in phytosterols amongst all vegetable oils and thus is very helpful in maintaining cardiovascular health.

### Storage Conditions

Use by opening the plastic cap without puncturing the packaging, close the cap after use. Keep out of the sun, store in a cool place. Make sure water doesn’t get in the tin.

# OLIVE OILS

Olive oil, a must-have in the tastiest recipes since Antiquity, owing to its flavour and scent and its light and healthy nature, has met the high quality of Orkide. Orkide Extra Virgin and Orkide Olive Oils (Riviera) add rich flavour to many and various recipes from salads to warm meals, from appetizers to fries and bring health and deliciousness to meal tables.

# EXTRA VIRGIN OLIVE OIL

Olive oil has been a staple of kitchens ever since Antiquity and is among the primary choices of chefs today for its taste and its health benefits. Orkide Extra Virgin Olive Oil is prepared with the pressing methods of the Aegean and Gulf regions and is approved by connoisseurs for its superior flavour.

### Recommendation for Use

You may use it in salads, appetizers, dishes warm and cold and in pastries. May be consumed directly at breakfast alongside toast. Experts suggest at least one spoonful of olive oil every day for its health benefits.

### Benefits

Extra virgin olive oil is good for your health and is highly nutritious. It's rich in Omega-6 and Omega-9, which are unsaturated fatty acids. It's very rich in antioxidants. Extra virgin olive oil has high a percentage of omega fats (polyunsaturated fats that are good for your heart) along with monounsaturated fats. Extra virgin olive oil contains polyphenols which act as antioxidants, reducing the oxidative stress throughout your body. Antioxidants also help in promoting and strengthening your immune system making your body more resistant to infections and inflammation. Helps lower bad cholesterol. A lot of studies show that having extra virgin olive oil as part of a balanced diet can help regulate blood sugar and improve insulin sensitivity, phytosterols, it may lower your risk of heart disease.

### Storage Conditions

Keep the PET and glass bottles out of the sun. Use the tin by opening the plastic bottle and take care not to puncture the tin, close cap after use. Store in a dry and cool place and make sure water doesn't get in.

# OLIVE OIL (RIVIERA)

We recommend Orkide Olive Oil (Riviera), which is obtained by blending extra virgin, natural first and refined olive oil, for all hot dishes and fries with meat and vegetables.

Recommendation for Use

Orkide Olive Oil (Riviera) blends the unique taste and smell of extra virgin with the lightness of refined olive oil. With its light flavour, it is a healthy option for all warm dishes, fries, and pastries.

Benefits

With a lighter colour and a lighter aroma compared to extra virgin, Riviera is especially fit for fries and cold dishes. It’s the most ideal and healthy option for marinading vegetables and making fries in the oven or on the stove.

Storage Conditions

Keep the PET and glass bottles out of the sun. Use the tin by opening the plastic bottle and take care not to puncture the tin, close cap after use. Store in a dry and cool place and make sure water doesn’t get in.

# VEGETABLE GHEE

Orkide Vegetable Ghee is a vegetable fat developed in state-of-the-art refining units. It is an aromatic, water free and 100%-vegetable based fat which is generally used in cooking meals. It can be used in a variety of foods from rice dishes to pastries, adding a unique buttery flavour to your dishes.

### Recommendation for Use

It's a good fit for cooking on a larger scale. It can be used for hot meals in dining halls, restaurants, and cafeterias. Thanks to its structure and taste created with a specially developed formula, it brings out the flavour of the food in the best way.

### Benefits

Vegetable ghee is widely used in India and the Middle East. It's a great convenience in all kinds of meals. It enhances the taste of the meal thanks to its aroma. It's resistant to high heat. It has a homogeneous consistency with no phase separation. It's a mixture of trans-fat-free vegetable oils and fats and is 100% plant-based. It helps produce healthier products with an excellent taste and texture.

### Storage Conditions

Store in a cool, dry and odourless place.

# **OILS FOR HORECA (CATERING) PRODUCTS**

# SUNFLOWER OIL & FRYING OIL

**Usage Recommendation**

It offers delicious and practical solutions to professional kitchens. It is ideal for fries, hot and cold meals, salads and dressings. It is also recommended for frying dough such as tulumba and lokma which are traditional desserts of Turkish cuisine.

**Benefits**

It allows to fry the dough that is golden yellow and crispy on the outside, while being soft inside without having absorbed fat. It contains natural antioxidant vitamin E, unsaturated fatty acids like linoleic acid (Omega 6) and oleic acid (Omega 9).

**Storage Conditions**

Use by opening the plastic cap without puncturing the packaging, close the cap after use. Keep out of the sun, store in a cool place and make sure water doesn't get in the canister.

# FRY FRYING OIL & BAKLAVAM

## Usage Recommendation

Orkide FRY Frying Oil is a product specially developed for professional kitchens. It can be used in pastries and desserts such as deep-fried rolls filled with cheese/meat, savory pastry pockets, deep fried water thin dough with raw minced meat filling, doughnut, as well as fries like potato, croquet and seafood. It allows to prepare light, golden and crispy fries.

Orkide Baklavam may be used in all sherbet-based and phyllo-dough desserts. Perfect for traditional Turkish desserts thanks to its consistency, odour and flavour indiscernible from the baking fats of Urfa.

## Benefits

Orkide FRY Frying Oil is resistant to high temperature. It does not burn, foam, or cause smoke or odor. It can be used several times without losing its flavor and texture. This aspect provides savings for professional kitchens. It does not contain trans fat.

Orkide Baklavam adds flavour and a golden sheen to sherbet-based and phyllo dough desserts. Prevents the layers from sticking, allows the baklava's layers to rise ideally, and makes the dessert crisp and makes it dissolve in your mouth. Allows the sherbet to seep into every layer. Does not contain trans fats.

## Storage Conditions

Use by opening the plastic cap without puncturing the packaging, close the cap after use. Keep out of the sun, store in a cool place and make sure water doesn't get in the canister.

# PRODUCTION AT INTERNATIONAL STANDARDS FOR TASTES BEYOND STANDARDS

As Orkide Oils, we produce with the highest capacity, invest in our country and work tirelessly. In addition to our oil filling, refining and deodorisation facilities, three separate margarine and shortening lines operate in our factory, which is located on a 30,000 m<sup>2</sup> area in Bornova, Izmir. Our modern laboratory, filling, labelling and canning units are located in our Bornova factory. The İzmir Kemalpaşa Akalan facility on an area of 82,000 m<sup>2</sup> is used for the storage of crude oils. In our factory built on a 10,000 m<sup>2</sup> area in İzmir Çiğli, we produce our delectable and healthy olive oils. We take pride in adding flavour to the world's tables with the products we produce in line with international standards in our modern facilities equipped with fully automated high technology with an annual production capacity of 360,000 tones.
